

# Rotarians At Work Day

## April 25, 2009

On April 25, 2009 over 76,000 Rotarians from around the world will be doing wonderful hands-on projects in their community. What started as a joint district project in 2005-2006, has grown to encompass at least 26 Districts throughout the world.

Rotarians At Work Day is a grass-roots program where the Rotary Clubs in each participating district select and perform hands-on projects in their local community all on the same day. The benefits of this worthwhile program are many.

- ◆ **Rotary Club Members Get Re-energized!**
- ◆ **Rotary Clubs Attract New Members!**
- ◆ **The Community Gets Much Needed Assistance!**
- ◆ **The Press Delights in Telling the Story!**

In 2005-2006, then District Governor Bob Watson from District 5340 had a dream. He envisioned a time when all Rotarians, Clubs and Districts around the world would be working on community projects on the same day. Sadly, Bob passed away in June 2008 before his dream was realized. We will still make this wonderful dream real!

For more information, go to [www.rotariansatwork.org](http://www.rotariansatwork.org) or ask DG Pam Russell ([pamrussell@sbcglobal.net](mailto:pamrussell@sbcglobal.net)) about it.
